TECHNICAL DATA SHEET

PENOSIL SpeedFix High Tack 707

General-purpose, strong, hybrid-polymer-based high-quality adhesive with very good adherence and especially strong initial bonding.

- High tack adhesive.
- Extremely high initial grab.
- Fast curing and nearly no shrinkage.
- Forms a strong and elastic bond.
- Excellent adhesion to a wide range of materials.
- Very good UV-, weather and ageing resistance.
- Silicone, isocyanate and solvent free.
- Non-corrosive.
- Impact and vibration absorbing.
- For both interior and exterior applications.
- Can be applied to moist surfaces.
- Paintable (test previously).

Fields of application

- Suitable for gluing and sealing indoors and outdoors.
- Construction adhesive with high adhesion power is used for gluing in places which require extra strong bond.
- Adheres well to most construction materials.
- Panel bonding for caravans, motor homes, commercial vehicles.
- The gluing and sealing mass has good vibration and noise-suppressing properties.

Adhering

Adheres well to metal, stone and wood, as well as for gluing concrete, wood, bricks and masonry, aluminium, galvanized steel, PVC, EPDM.

Application instructions

Application conditions

Application temperature between +5°C and +40°C.

Surface preparation

The surfaces must be dry, clean from dust, loose particles and oil. Non-porous surfaces should be cleaned with solvent and a clean, non-fluffy cotton cloth. Solvent excess should be removed before evaporating with a clean cloth.

Application method

Cut off the threaded end of the cartridge and screw on the application nozzle for directing adhesive. Cut the threaded end in a way where a suitable opening for application is produced. Place the cartridge together with the applicator in the gun and fill the installation nozzle with adhesive, by repeatedly pressing the gun trigger. Apply the adhesive to the surface to be connected and immediately press to the substrate. Support until product is fully cured. Protect the adhesive against moisture and ensure a good ventilation during the curing period.

Cleaning

Clean the uncured adhesive with solvent such as acetone or use PENOSIL Cleaning Wipes. Cured adhesive can only be removed mechanically.

Properties	Value	Unit
Basis	Hybrid	
Consistency	Paste	
Density (DIN 53 479-B)	1,55	g/ml
Open time	5	min
Curing rate	23	mm/24h
Intensity of microbiological grows (ISO 846)	0+	
Application temperature	+5+40	°C
Service temperature	-40+90	C°
Shelf life	12	months
Shore A hardness (ISO 868)	65	
Properties of cured sealant		
E-Modulus 100% (ISO 37)	2,3	N/mm ²
Tensile strength (ISO 37)	3,0	N/mm²
Elongation at break (ISO 37)	200	%
Cured adhesive shear strength (WGM214)	38	kg/cm ²
Cured adhesive tensile strength (WGM214)	17	kg/cm ²

The values specified were obtained at +23 °C and 50% relative humidity, unless otherwise specified. These values may vary depending on environmental factors such as temperature, moisture and type of substrates.

Technical classification and certificates

- EMICODE® EC 1 Plus very low emission
- French A+ low emission

Colour

White

Package

290 ml cartridge, 12 pcs in a box. 400 ml foil package, 28 pcs in a box. 600 ml foil package, 20 pcs in a box.

Storage conditions and shelf life

Guaranteed storage time 12 months starting from the date of manufacture if stored in a closed original package in a dry place between +5 °C and +25 °C.

Limitations

- Do not use for sealing aquariums and underwater joints.
- Test before using on natural stone.
- There is no adhesion to PE, PP, PTFE (Teflon®).
- Due to the wide variety of possible substrates, we recommend a preliminary compatibility test.

Safety regulations

Ensure sufficient ventilation during application and wear necessary personal protective equipment. More specific safety information is available on the safety data sheet (SDS).

Note: The instructions in the present documentation are based on tests carried out by the manufacturer and are presented in good faith. Due to variations in materials and substrates as well as the various application possibilities that are beyond our control, the manufacturer is not liable for the results achieved. In any case, it is recommended to test the product suitability at the place of application. Manufacturer reserves the right to modify products without prior notice. This TDS replaces and supersedes all previous data sheets on the same product.
